## PROLOGUE

»The conference on the programme of editions of sources for the Slovene history, which was held on September 12<sup>th</sup> 1972 in Ljubljana in the hall of the Slovene Academy of Sciences and Arts, was organised by the Sekcija za občo in narodno zgodovino (the Section for general and national history) at the Institute for history of the Slovene Academy of Sciences and Arts, and by the Arhivsko društvo Slovenije (the Archival Association of Slovenia), has established that critical editions of significant sources are among very important tasks of our science. Such editions are mostly intended for a narrow circle of interested only but have a permanent significance for science and are an indispensable support to historical scientific research. That is why as well as the Slovene Academy of Sciences and Arts as the Inštitut za zgodovino delavskega gibanja (the Institute for the history of the worker's movement), the archives and other interested institutions must devote this sphere special attention. In doing so they must have in sight comprehensive editions of sources, which would be issued in special publications, as well as publishing smaller units for which feasibility exists, or other possibilities should be found. The mentioned institutions must enable qualified scientists to devote a significant part of their work to this field, and ensure an appropriate evaluation of their work. The number of scientists in our institutions that could work in the mentioned field is too small and needs to be increased; it is also necessary to technically facilitate the scientists' work. The covering of financial expenses for the arrangement of the edition of sources and for their publishing is one of the important tasks of the Raziskovalna skupnost Slovenije (the Research community of Slovenia), which should be guaranteed through the Fund of Boris Kidrič.

Concerning concrete tasks the conference has come to the following results:

### The Middle Ages

... For the coastal towns we have a riches of preserved notary, vicedominus', and other books; because of the multitude of materials it would be necessary to limit to the edition of notary books, namely in the first place of the Piran ones ...

## PROLOG

»Posvetovanje o programu edicij virov za slovensko zgodovino, ki je bilo dne 12. septembra 1972 v Ljubljani v dvorani SAZU in sta ga organizirala Sekcija za občo in narodno zgodovino pri Inštitutu za zgodovino Slovenske akademije znanosti in umetnosti in Arhivsko društvo Slovenije, je ugotovilo, da spadajo kritične edicije pomembnih virov med zelo pomembne naloge naše znanosti. Take edicije so sicer večinoma namenjene le ožjemu krogu interesentov, imajo pa trajen pomen za znanost in so neobhodno oporišče zgodovinskemu znanstvenemu raziskavanju. Zato morajo tako Slovenska akademija znanosti in umetnosti kakor tudi Inštitut za zgodovino delavskega gibanja, arhivi in druge zainteresirane ustanove posvetiti temu področju posebno pozornost. Pri tem morajo imeti pred očmi tako obsežnejše izdaje virov, ki bi izšle v posebnih publikacijah, kakor tudi izdaje manjših enot, za katere obstoje ali pa je treba ustvariti druge možnosti. Omenjene ustanove morajo omogočiti za to kvalificiranim znanstvenim delavcem, da posvetijo temu področju znaten del svojega dela ter zagotoviti, da bo to delo primerno vrednoteno. Število znanstvenih delavcev v naših ustanovah, ki bi mogli delati na tem področju, je premajhno in ga je treba povečati; tudi je potrebno delavcem tehnično olajšati njihovo delo. Kritje finančnih izdatkov za pripravo edicij virov in za njihovo izdajo spada med pomembne naloge Raziskovalne skupnosti Slovenije, ki bi ga morala zagotoviti prek Sklada Borisa Kidriča.

Kar se tiče konkretnih nalog, je prišlo posvetovanje do naslednjih rezultatov:

### S r e d n j i v e k

... Za primorska mesta imamo ohranjeno veliko bogastvo notarskih, vicedomskih in drugih knjig, pri katerih bi se bilo zaradi množine tega gradiva potrebno omejiti na izdajo notarskih knjig, in sicer najprej piranskih ...

## ON THE PUBLICATION

Following the publication of four entirely preserved Piran notary codices: (by consecutive archival numbering) the first from the period 1281–1287/89, comprising 85 sheets,<sup>1</sup> the second from the period 1284–1288, comprising 55 sheets,<sup>2</sup> the sixth from the period 1289–1292, comprising 78 sheets,<sup>3</sup> and the thirteenth from the period 1298–1317, comprising 56 sheets,<sup>4</sup> there are another thirteen only partially preserved Piran notary books to be published. The subject of publication are the preserved parts of the fourth, fifth, seventh, eighth, and seventeenth notary fascicle.<sup>5</sup>

How to justify the previous selection of the published codices and the present selection of their fragments yet to be published? – The previous four publications comprised all four almost entirely preserved Piran notary codices, in correspondence with the chronological timeline of their origin. Quite to the contrary, this time the selection of the preserved parts of the remaining thirteen notary books was not based on the chronological but notary criteria. All fragmentarily preserved codices subject to the present publication were written by the quill feather of the notary Dominicus Petenarius. He himself had also registered the data on business legal agreements in the already published first and second notary books. He compiled the most extensive fond of Piran notary fascicles. The preserved legacy of Dominicus' records in the notary codices thus comprises 180 sheets, whereas the entire opus of preserved notary fascicles that represent the work of eleven notaries (including Dominicus Petenarius) comprises 411 sheets. Among the preserved notary records Dominicus' contribution therefore amounts to as much as 44 percent. How can that be explained? Dominicus was unquestionably a methodical and diligent man; this is evident from his systematic approach to writing, consistent use of formulations and, finally, the clear and legible ductus of his handwriting. Furthermore, he clearly took special care storing his completed business volumes wherein he would register the abstracts of agreements on transactions executed by the inhabitants of Piran and several other businessmen, as they have been preserved for more than seven centuries, to the present day.

The published fragments of the notary codices from the Piran Branch Office of the Regional Archives of Koper (SI PAK PI) bear the consecutive markings 4, 5, 7, 8 and 17, which, however, do not correspond to the chronology of their origin. The definition of the period comprised by the Piran notary codex marked 4, which does not contain any indica-

## K OBJAVI

Po izidu štirih celovito ohranjenih notarskih kodeksov iz Pirana: (po zaporednem arhivskem oštevilčenju) prvega iz let 1281–1287/89) s 85 listi,<sup>1</sup> drugega iz razdobja 1284–1288 s 55 listi,<sup>2</sup> šestega iz razdobja 1289–1292, ki obsega 78 listov<sup>3</sup> in trinajstega za čas 1298–1317 s 56 listi<sup>4</sup> preostaja za objavo še trinajst le delno ohranjenih piranskih notarskih knjig. Predmet objave so ohranjeni deli četrtega, petega sedmega, osmega in sedemnajstega notarskega sešitka.<sup>5</sup>

Kako pojasniti dosedanji izbor objavljenih kodeksov in tokratni izbor njihovih fragmentov za objavo? – Dosedanje štiri objave so zajele vse štiri praktično v celoti ohranjene piranske notarske sešitke in so sledile časovnemu zaporedju njihovega nastanka. Izboru v tokratno objavo pritegnjenih ohranjenih delov preostalih trinajstih notarskih knjig pa ni narekoval kronološki ampak notarski kriterij. Vse fragmentarno ohranjene kodekse, ki so predmet objave, je namreč izpolnilo (gosje) pero notarja Dominica Petenarija. Prav on je zapisal tudi podatke o poslovno-pravnih dogovorih strank v že objavljenih prvi in drugi notarski knjigi. Bil je stvaritelj najobsežnejšega ohranjenega fonda piranskih notarskih sešitkov. Ohranjena zapuščina njegovih zabeležk v notarskih kodeksih obsega 180 listov, celotni opus ohranjenih notarskih sešitkov pa obsega 411 listov in je delo enajstih notarjev (vključno z Dominikom Petenarijem). Med ohranjenimi notarskimi zapisi je torej Dominikov delež kar 44-odstoten. Kako to pojasniti? Dominik je bil nedvomno redoljuben in vesten, kar odraža njegova sistematičnost pri pisanju, stalnost formulacij in nenazadnje jasen in čitljiv duktus pisave. Očitno je preudarno poskrbel za hrambo svojih popisanih poslovnih zvezkov, v katere je vpisoval povzetke dogovorov o sklenjenih poslih Pirančanov in nekaterih drugih poslovnežev, saj so se ohranili več kot sedem stoletij vse do danes.

Objavljeni fragmenti notarskih kodeksov piranske izpostave Pokrajinskega arhiva Koper (SI PAK PI) nosijo zaporedne oznake 4, 5, 7, 8 in 17, ki pa ne ustrezajo kronologiji njihovega nastanka. Opredelitev razdobja, ki ga zajema piranski notarski kodeks z oznako 4, ki lastne letne datacije ne navaja, je potrebna popravka. Sešitek je bil doslej umeščen v razdobje 1284–1288.<sup>6</sup> Nekatero osebo, ki se v njem omenjajo kot pokojne, pa so se po pričevanju drugih notarskih zvezkov poslovno udeleževale še po (!) letu 1288. Primerjava konkretnih dejavnih in pokojnih oseb, omenjenih v doslej objavljenih piranskih notarskih

tion concerning the year of its origin, needs to be corrected. The fascicle has so far been placed in the period 1284–1288.<sup>6</sup> However, certain persons that are indicated therein as deceased are registered in other notary books as commercially active even after (!) 1288. The comparison between the actual active and deceased persons indicated in the Piran notary books published so far and fascicles presented in this publication, leads to the conclusion that the records from the – by archival numbering – fourth notary book date back to 1291. This means that the data in the fragment of codex No. 5 (1289–1290) are older (!) than those from the fascicle bearing the consecutive number 4.

The publication comprises the following fascicles and parts thereof:

Fascicle number	Notary	Period	Number of sheets
5	Dominicus Petenarius	1289–1290	12
4	Dominicus Petenarius	1291	6
7	Dominicus Petenarius	1291	8
8	Dominicus Petenarius	1292–1293	12
17	Dominicus Petenarius	1300/1305	2

<sup>6</sup> The dating was assigned to it by Božo Otoresec, the author of the overview and inventory of the original SI PAK PI fond.

knjigah in v sešitkih, ki jih predstavlja ta publikacija, vodi k zaključku, da zapisi iz – po arhivskem oštevilčenju – četrte notarske knjige datirajo iz leta 1291. To pomeni, da so podatki iz fragmenta kodeksa številka 5 (1289–1290) starejši (!) od tistih iz sešitka, ki je oštevilčen z zaporedno številko 4.

Objava zajema naslednje sešitke in njihove dele:

številka sešitka	notar	razdobje	število listov
5	Dominicus Petenarius	1289–1290	12
4	Dominicus Petenarius	1291	6

17	Dominicus Petenarius	1300/1305	2

# PRESENTATION OF THE ORIGINALS

## APPEARANCE

The descriptions of the preserved (parts of) fascicles share many features in common. The only published fragment of notary books that has covers is the one marked 8. With the exception of fragment No. 17, which comprises only two sheets of different formats, all other parts of notary codices consist of one paper fascicle, bound together in the middle with a thread. The paper has no water marks and is – save the fragment bearing the consecutive marking 17 – restored. But the restoration could not undo the original damage caused by moisture and corrosion. The handwriting runs parallel to the narrower side of the sheets, which are numbered with pencil in modern handwriting as there is no original foliation of the books.<sup>7</sup>

The book marked 5 (from the period 1289–1290) comprises twelve sheets, numbered in the bottom right corner of the recto page. The paper is relatively well preserved, save for the damage to the upper section, which was caused by moisture and corrosion, rendering the reading difficult. The size of sheets is 29 x 11.65 centimetres. Sheet No. 5, however, is narrower, measuring 10.3 centimetres wide.

The notary book with the consecutive number 4 (from 1291) comprises six sheets, numbered in the bottom right corner of the recto page. The careful restoration could not undo the major moisture-related damage to the inner margin of the sheets adjacent to the stitching, and the serious corrosion in the upper section. The damage in these cases was so severe that the top corner of the sheets had to be trimmed off. Only the first sheet has been preserved in a relatively good condition. The legibility of the text is reduced by the damage. However, since the entries are substantially more or less uniform, they are partly reproducible. The size of sheets is 25 x 11.65 centimetres.

The notary book with the consecutive number 7 (from 1291) comprises eight sheets, numbered in the bottom right corner of the recto page. The paper of this fascicle is well preserved. The size of the sheets is 31–31.7 x 11.7 centimetres. Unlike in the other parts of the fascicle, the text on the verso side of the third sheet (3<sup>v</sup>) is reversed upside down.

The notary book with the consecutive number 8 (from the period 1292–1293) comprises twelve sheets – on restoration bound into light grey leather covers – numbered in the middle of the top margin of the recto page. The paper is relatively well preserved, except for the damaged right corner of the fascicle, which had to be trimmed off. Part of the text is therefore missing. The size of the sheets is 32.2 x 11.3 centimetres. Between the third and fourth sheet there is a smaller piece of paper containing a record of another notary that will not be included in the publication. The piece of paper measures 15.4 x 8.3–8.5 centimetres.

The notary book with the consecutive number 17 (from 1300 and 1305) comprises only two well preserved sheets of different formats. The folios bear the numbers 4 and 6 in the right side of the bottom part of the recto page. The size of the sheets is 23.3 x 11.4 (sheet 4) and 20.5 x 15.9–16 (sheet 6) centimetres.

---

<sup>7</sup> They were numbered by Božo Otorepec; however, the fascicles also contain notes made by Camillo de Franceschi.

# PREDSTAVITEV IZVIRNIKOV

## IZGLED

Opisi ohranjenih (delov) sešitkov imajo mnogo skupnih značilnosti. Od objavljenih fragmentov notarskih knjig ima platnice le tisti z oznako 8. Razen fragmenta 17, ki obsega le dva lista različnih formatov, so vsi ostali deli notarskih kodeksov iz po enega papirnega sešitka, ki je v sredini spet z vrvico. Papir je brez vodnih znakov in – razen pri fragmentu z zaporedno oznako 17 – restavriran. To je saniralo, ni pa moglo odpraviti prvotnih poškodb od vlage in najed. Pisava v knjigah teče vzporedno z ožjo stranjo listov, ki so oštevilčeni s svinčnikom v sodobni pisavi, medtem ko izvirnega foliiranja v knjigah ni.<sup>7</sup>

Knjiga z oznako 5 (iz razdobja 1289–1290) obsega 12 listov, ki so oštevilčeni na prednji strani v desnem spodnjem kotu. Papir je razmeroma dobro ohranjen. V zgornjem delu je bil poškodovan od vlage in najed, kar otežuje razbiranje besedila. Velikost listov je 29 x 11,65 centimetra, list 5 pa je ožji in meri v širino 10,3 centimetra.

Notarska knjiga z zaporedno številko 4 (iz leta 1291) obsega 6 listov, ki so oštevilčeni na prednji strani v desnem spodnjem kotu. Skrbna restavracija ni mogla odpraviti hudih poškodb od vlage ob notranjem robu listov, kjer teče šiv, in v zgornjem delu od velike razjede; tu so bile poškodbe tolikšne, da so ob restavraciji zgornji rob listov pristigli. Razmeroma dobro ohranjen je le prvi list. Berljivost besedila je zaradi poškodb okrnjena, ker pa gre za vsebinsko dokaj enotne vpise, jih je deloma mogoče reproducirati. Velikost listov je 25 x 11,65 centimetra.

Notarska knjiga z zaporedno številko 7 (iz leta 1291) obsega 8 listov, ki so oštevilčeni na prednji strani v desnem zgornjem kotu. Papir sešitka je dobro ohranjen. Velikost listov je 31–31,7 x 11,7 centimetra. Besedilo na hrbtni strani tretjega lista (3<sup>v</sup>) je z ozirom na ostali tekst sešitka obrnjeno na glavo.

Notarska knjiga z zaporedno številko 8 (iz razdobja 1292–1293) obsega 12 listov – ob restavraciji vezanih v usnjene platnice svetlo sive barve –, ki so oštevilčeni na prednji strani v sredini zgornjega roba. Papir je razmeroma dobro ohranjen, čeprav je bil desni vogal sešitka poškodovan in so ga zato pristigli. Del besedila zato manjka. Velikost listov je 32,2 x 11,3 centimetra. Med tretjim in četrtem listom je manjši listek z zapisom drugega notarja, ki ga objava ne zajema. Listek ima velikost 15,4 x 8,3–8,5 centimetra.

Notarska knjiga z zaporedno številko 17 (iz let 1300 in 1305) vsebuje le dva dobro ohranjena lista različnih formatov. Foliirana sta s številkami 4 in 6 v spodnjem desnem delu prednje strani. Velikost listov je 23,3 x 11,4 (list 4) in 20,5 x 15,9–16 (list 6) centimetrov.

<sup>7</sup> Oštevilčil jih je Božo Otorespec, sicer pa v sešitkih najdemo tudi beležke Camilla de Franceschija.

## THE LANGUAGE, THE TEXT, THE HANDWRITING

The language of the preserved fragments of notary books is simplified Latin. Phraseology is plain. Plural and singular forms, cases, tenses and modes are used inconsistently and rarely in accordance with the classical Latin language. Diphthongs are dropped, letters and syllables frequently omitted, and reversals in letter sequence very common. The same words are often spelled differently, whereas the same abbreviations tend to illustrate different meanings and grammatical forms. Consistency is noted particularly in certain formal phrases that are characteristic for certain types – substance of entries.

The text of the preserved fragments is written with quill feather and ink. The lines and borders on sheets are not specifically marked (*rubricated*). Some entries, however, are separated by shorter or longer horizontal lines, drawn from left to right. Numerous entries are crossed out, probably signifying a concluded business, settlement, or annulment of an obligation indicated in an entry. The same meaning is conveyed by an upright crosslet to the left of an entry. The notary often marked a new entry with a symbol in the form of a broken letter e, and occasionally – particularly when a new entry started in the middle of the preceding one – with a curly paragraph-like symbol. One entry in the currently published fragments of notary fascicles (book No. 5, sheet 8<sup>v</sup>) is also accompanied by Dominicus' notary sign. Apart from here, Dominicus' sign can only be found in the already published notary book No. 2 (1284–1288), on sheets 5<sup>v</sup>, 29<sup>v</sup> and 42.<sup>8</sup>

A crosslet left of or over the beginning of an entry signifies that a creditor–debtor relation arising from a transaction indicated in an entry is settled.

Left of the beginning of an entry there is often a symbol in the form of a broken letter e. In the transcription it is represented by the capital letter E.

In front of an entry – particularly when it begins in the middle of the line where the preceding entry ends – one can often find the curved paragraph-like symbol, represented in the transcription by the modern paragraph symbol (§).

<sup>8</sup> Cf. note 2.

## JEZIK, BESEDILO, PISAVA

Jezik knjige je popreproštena latinščina. Izražanje je enostavno. Množinske in edninske oblike, skloni, časi in načini so uporabljani nedosledno in redko v skladu s klasičnim jezikom. Dvoglasniki so opuščeni, črke in zlogi so večkrat izpuščeni, redne so zamenjave zaporedja črk. Iste besede so neredko pisane različno, iste kratice pa večkrat ponazarjajo različne pomene in slovnične oblike. Stalnost opazamo predvsem pri nekaterih formalnih frazah, ki so značilne za določene tipe – vsebine zapisov.

Besedilo ohranjenih delov notarskih knjig je pisano z gosjim peresom in črnilom. Vrste in robovi na listih niso posebej zaznamovani (rubricirani). Nekatere vpise ločujejo kratke ali daljše vodoravne črte, potegnjene od leve proti desni. Številni vpisi so križ-kraž prečrtani, kar pomeni zaključen posel ter poravnavo strank, oziroma razveljavitev iz vpisa izhajajočih obvez. Enak pomen ima tudi pokončen križec na levi strani vpisa. Nov vpis je notar pogosto označil z znakom v obliki prelomljene črke e, občasno – zlasti tedaj, ko se je nov vpis začel sredi predhodnega – pa z upognjenim paragrafastim znakom. V objavljenih fragmentih notarskih sešitkov je notar Dominik en vpis (knjiga s številko 5, list 8<sup>v</sup>) pospremil tudi s svojim lastnim notarskim znakom. Njegov znak sicer zasledimo le še v že objavljeni notarski knjigi s številko 2 (1284–1288) na listih 5<sup>v</sup>, 29<sup>v</sup> in 42.<sup>8</sup>

Križec levo od začetka vpisa ali prek njega pomeni, da je bilo upniško-dolžniško razmerje iz posla, ki ga omenja vpis, poravnano.

Levo od začetka vpisa se pogosto pojavlja znak v obliki prelomljene oblike črke e.

Pred začetkom vpisa – zlasti kadar se ta začne sredi vrstice, kjer se končuje predhodni vpis – večkrat srečamo upognjen paragrafast znak, v prepisu ga ponazarja sodoben znak za paragraf (§).

Dominicus' notary sign (2.8 x 0.7 centimetres: fascicle marked 5, sheet 8<sup>v</sup>).

The text has no punctuation. The separation of words is not consistent. There are frequent occurrences of two words merged into one or one word written as two separate words. Word division at the end of a line seems arbitrary. Logograms and abbreviations of words are mostly classical, but sometimes original and inconsistent. Furthermore, words are often written grammatically incorrectly. As a whole, omitted consonants (m, n, r) – sometimes in combination with vowels – and individual vowels are marked by lines and curves above words. The omitted m and n (sometimes together with a vowel) are marked by a small horizontal line above the word. The symbol denoting an omitted (syllable with) r is a curve similar to the right part of the capital letter r or a hook in the form of the letter v in a horizontal position, opening to the right. The apostrophe at the end of a word replaces the -us and -is endings. The use of marks is not consistent; signs denoting abbreviations are missing in some cases and superfluous in others. There are frequent occurrences of abbreviations for con- and the conjunction et.

The frequently used symbol **con-** denoting abbreviation should not be confused with the letters g and q.

The abbreviation for the conjunction **et** is generally used.

The handwriting in the book is uniform. It is a cursive minuscule script consisting of small letters and typically used by office clerks:

The letter **a** is usually *ci-a*, as the modern lowercase letter *a*. The letter occupies the lower half of the line. It connects to the preceding letter and with its lower part to the next one.

At the beginning of a word, particularly in names, the letter sometimes occurs in an emphasised paragraph-like form. In such cases it is longer, descending below the baseline. It does not connect to any direction.

The symbol for **b** is similar to the modern printed lowercase letter b. It extends from the bottom to the top of the line. There it ends with a small hook curving down to the left. It does not link to any direction.

The symbol for **c** is mostly semicircular, opening to the right. It occupies the lower half of the line. Its upper section connects to the following letter. It resembles the letter t.

The letter **d** extends from the bottom to the top of the line. The circular lower part extends to the half height of the line. The upright part is not straight, but rather bends down to the left from the top of the line, forming an arc which turns right in the lower part of the line and connects to the following letter. Often, it also connects with the preceding letter.

Dominikov notarski znak (2,8 x 0,7 centimetra: sešitek z oznako 5, list 8<sup>v</sup>).

Standardnih, sodobnih ločil v besedilu ni. Delitev besed med seboj ni dosledna. Večkrat sta zapisani skupaj po dve besedi, ali pa je ena beseda zapisana v dveh delih. Deljenje besed na koncu vrste je poljubno. Znaki za besede in okrajšave besed so večinoma klasične, deloma pa samosvoje. Besede pogosto niso zapisane slovnično pravilno. V splošnem izpuščene znake za konsonante (največkrat m, n, r, lahko pa tudi druge) – včasih v kombinaciji z vokali – in izpuščene znake za posamezne vokale nakazujejo črte in vijuge nad besedami. Izpadli m in n (včasih skupaj s samoglasnikom) označuje vodoravna črtica nad besedo. Znak za izpadli (zlog z) r je vijuga, ki je podobna desnemu delu kapitalne črke r, ali kljuka v obliki ležeče črke v, odprte v desno. Opuščaj na koncu besede nadomešča končnice tipa -us, -is. Oznake niso uporabljane povsem dosledno, znaki, ki označujejo okrajšavo, občasno manjkajo, drugič so odveč. Pogosti sta okrajšavi za con- in veznik et.

Pogosto uporabljanega znaka za okrajšavo **con-** ne smemo zamenjavati s črkama g in q.

Splošno uporabljana je kratica za veznik **et**.

Pisava v knjigi je enotna. Gre za pisarniško kurzivno minuskulo, ki jo sestavljajo male črke:

Črka **a** je običajno ci-a, podobna sodobnemu malemu pisanemu a. Zavzema spodnjo polovico vrste. Veže se s predhodno, s spodnjim delom pa z naslednjo črko.

Na začetku besed – zlasti imen – ima ta črka tu in tam poudarjeno, paragrafasto obliko. V teh primerih je daljša in sega pod osnovno črto. Ne veže se v nobeno smer.

Znak za **b** je podoben sodobnemu tiskanemu malemu b. V višino sega prek vse vrste. Navpični krak se na vrhu konča s kljukico v levo navzdol. Ne veže se v nobeno smer.

Znak za **c** je polkrožno zaobljen – včasih pa tudi ne – in odprt v desno. Zavzema spodnjo polovico vrste. Zgoraj se veže z naslednjo črko. Podoben je črki t.

Črka **d** se razteza čez vso višino vrste. Okrogli spodnji del sega do srede vrste. Dolgi pokončni del ni raven, ampak od vrha vrste proti levi oriše lok, ki v spodnjem delu vrste zavije v desno in se veže s sledečo črko. Ta črka je večkrat povezana tudi s predhodno.

The symbol for **e** in the middle or at the end of a word occupies the lower half of the line. It consists of a semicircle opening to the right, and connects to the following letter from the centre. The letter **e** also replaces the diphthong **ae**.

At the beginning of a word, the letter is sometimes broken, as if an additional small line were drawn above, just to the right of the symbol for **e** described above. The notary frequently added this symbol to the left of the beginning of a new entry.

In rare cases, when placed at the beginning of an entry, the letter occurs in a special, emphasised form.

The symbol for **f** consists of a vertical line or a loop ascending to the top of the line and descending below the baseline. The top of the letter ends with a hook curving to the right. The horizontal stroke crossing the middle of the vertical line connects to the following letter.

The symbol for **g** is similar to the number eight. It consists of a smaller circle opening upwards in the lower half of the line and a bigger part descending below the baseline, composed of a semicircle on the right, opening leftwards, and a hook in the form of the letter **v** in a horizontal position, opening to the right. The top part connects to the following letter.

The emphatic form of the letter extends to the top of the line. It has the form of the number eight, with its upper arc opening to the left. It does not connect to any direction.

The letter **h** extends with its left upright side from the bottom to the top of the line. At the top it ends with a small hook curving down to the left. The right arc in the form of the modern reversed letter **s** starts in the middle of the letter and continues to form a loop descending below the baseline. The letter does not connect to any direction.

The symbol for **i** may be either short or long. The short **i** resembles the modern lowercase letter **i**; it is rarely dotted. The letter occupies the lower half of the line and connects to both directions.

The long **i** extends down to the lower line. It occasionally occurs in the middle of a word; however, this form is usually ascribed to the second **i** in duplications, which are most often found at the end of a word, sometimes at the beginning of names and logical beginning of sentences.

Znak za **e** sredi ali na koncu besede zavzema spodnjo polovico vrste. Sestavljen je iz v desno odprtega polkroga, iz njegove sredine pa se veže s sledečo črko. Črka **e** nadomešča tudi dvoglasnik **ae**.

V začetku besede je črka včasih prelomljena, kot da bi nad opisanim znakom za **e** malo proti desni potegnili dodatno črtico. Tak znak je notar pogosto pripisal levo od začetka novega vpisa.

Na začetku vpisa ima črka v redkih primerih posebno poudarjeno obliko.

Znak za **f** sestavlja upognjena navpičnica, potegnjena prek vse višine osnovne in v spodnjo vrsto. Vrh navpičnice se končuje s kljuko v desno. S prečno črtico prek sredine navpičnice se črka veže z naslednjo.

Znak za **g** je podoben osmici. Sestavljen je iz manjšega navzgor odprtega kroga v spodnji polovici vrste in iz večjega dela pod osnovno vrsto, ki ga na desni sestavlja polkrog, odprt v levo, na levi pa kljuka v obliki ležeče črke **v**, odprte v desno. Iz zgornjega dela se črka veže z naslednjo.

Slovesna oblika črke je zapisana prek vse višine osnovne vrste. Ima obliko osmice, katere zgornji lok je odprt v levo. Ne veže se ne nazaj ne naprej (sešitek z oznako 7, list 2).

Črka **h** sega z levim pokončnim krakom prek vse višine vrste. Na vrhu se zaključuje s kljukico v levo navzdol. Desni lok v obliki sodobne zrcalne črke s začenja v sredini črke in v zavoju sega še pod osnovno vrsto. Črka se ne veže ne nazaj ne naprej.

Znak za **i** je kratek ali dolg. Kratki je podoben sodobnemu, redko ima piko. Zavzema spodnjo polovico vrste. Povezuje se naprej in nazaj.

Dolgi **i** je podaljšan navzdol v spodnjo vrsto. Občasno se pojavlja sredi besede, sicer pa ima tako obliko drugi **i** v podvojenjih, največkrat na koncu besede, včasih tudi na začetku imen in smiselnem začetku stavkov.

At the beginning of an entry, the long **i** is sometimes emphasised with an additional ornamentation on the left side.

The letter **l** resembles the modern lowercase letter **l**. It extends from the bottom to the top of the line. At the top it ends with a small hook curving down to the left. With the lower part curving to the right from the baseline it connects to the following letter.

The letter **m** occupies the lower half of the line; it has three arcs opening downwards and pointed at the top. It connects to the preceding letter and with a curve ascending from the baseline to the following one

The symbol for **m** occasionally occurs in an emphasised form. It consists of a little circle with the duplicated left section of the arc occupying the lower half of the line. Drawn from the circle to the right is a curve in the form of the reverse modern letter **s** descending to the lower line. The letter stands independently and does not connect to any direction.

The characteristics of the letter **n** are similar to the basic form of the letter **m**, only that it has one arc less. The second arc is occasionally prolonged, descending below the baseline. The first form connects to both directions, whereas the latter connects only to the preceding letter.

The symbol for **o** resembles the modern lowercase letter, with the difference that it forms a semicircle, sometimes open in the upward direction. The letter extends to the half height of the line. It connects to the preceding letter and with its hook to the following one.

The letter **p** consists of an upright part extending from the half height of the baseline to the half height of the lower line. At the top it has a small hook bending to the left. Adhering to the upright part is a semicircle formed in the upper right section. The letter connects to the preceding one.

The symbol for **q** consists of a small circle in the lower half of the line; adhering to it is an upright stroke on the right extending below the line. The letter does not connect to any direction.

The letter **r** occurs in three forms. The first extends to the half height of the line and resembles the modern lowercase letter **v**. It connects to both directions.

In some abbreviations and combinations and at the end of a word, it occurs in the form of the capital letter **r**, descending below the baseline. In connection with **o**- it only consists of a loop similar to the right part of the capital letter **r**, and in others it is accompanied by an upright stroke on the left side,

Na začetku vpisa je dolgi i včasih poudarjen z dodatnim okraskom na levi.

Črka **l** je podobna sodobnemu, tiskanemu malemu l. Razteza se čez vso višino vrste, na vrhu se konča s kljukico v levo navzdol. S spodnjim delom se od osnovnice veže s sledečo črko.

Črka **m** zavzema spodnjo polovico vrste, ima tri navzdol odprte loke, ki so zgoraj zašiljeni. Veže se s predhodno in od osnovne črte navzgor s sledečo črko.

Znak za **m** ima občasno poudarjeno obliko. Sestavlja jo krogec s podvojn timer levim delom loka, ki zavzema spodnjo polovico vrste. Iz njega je na desni izpeljana vijuga v obliki zrcalne sodobne črke **s**, ki sega v spodnjo vrsto. Stoji samostojno in se ne veže ne nazaj ne naprej.

Značilnosti črke **n**, so podobne običajni obliki črke **m**, le da ima **n** en lok manj. Občasno je drugi lok podaljšan pod osnovno črto. Prva oblika se veže v obe smeri, druga le s predhodno črko.

Znak za **o** je podoben sodobnemu malemu pisanemu o, je pa včasih zgoraj odprt. Zavzema spodnjo polovico vrste. Veže se s predhodno, s kljukico pa s sledečo črko.

Črka **p** je sestavljena iz pokončnega dela, ki sega od srede osnovne do srede spodnje vrste. Zgoraj ima kljukico v levo. Pokončnega dela se desno zgoraj drži zgoraj odprt polkrogec. Črka se veže s predhodno.

Znak za **q** sestavlja krogec v spodnji polovici vrste, ki se ga na desni drži pokončni krak, ki sega v spodnjo vrsto. Ne povezuje se s sosednjimi črkami.

Črka **r** ima tri oblike. Prva sega do srede vrste in je podobna sodobnemu malemu pisanemu v, veže se na obe strani.

V nekaterih okrajšavah in kombinacijah ter na koncu besed srečujemo tudi veliko črko **r**, ki sega od srede osnovne vrste navzdol v spodnjo. V povezavi z **o**-jo sestavlja le vijuga, ki je podobna desnemu delu kapitalne črke **r**, včasih pa se ji na levi pridruži še navpični krak, ki se na vrhu zaključuje

ending at the top with a hook bending down to the left. The first variant connects to the preceding letter, whereas the second stands independently.

When placed at the beginning of a word, the above described variant of the symbol for r has an additional left stroke on the left side.

The symbol for s resembles the letter f described above, with the only difference that it does not have the small transverse line. At the top it forms a hook that connects it to the following letter.

The symbol for t occupies the lower half of the line. It consists of a straight vertical back line on the left and a straight transverse line on the right, connecting the letter to the following one. The upright part is sometimes curled up. It resembles the letter c.

At the beginning of a word the upright stroke is sometimes emphasised and duplicated.

The letter u stands for the sounds u and v. It resembles the modern lowercase letter u. It occupies the lower half of the line and connects to both directions.

The symbol for v is placed at the beginning of a word and stands for the sounds u and v. The left stroke is high and curled as the modern letter s in a horizontal position. The right stroke is a small hook, curling upwards to the right, extending to the half height of the line. The letter does not connect to any direction.

The letter x is composed of a vertical and a horizontal stroke. The longer stroke is curved in the shape of the reverse modern letter s and drawn from the half height of the baseline leftward to the half height of the bottom line. The transverse stroke is straight and short. It extends from left to right crossing the baseline and the curved stroke. The letter stands independently and does not connect to any direction.

The occurrences of the letter y are extremely rare. What only distinguishes it from the symbol for x is the length of the shorter stroke, which extends to the baseline where it touches the curved stroke, without crossing either of them. It stands independently and does not connect to any direction.

The symbol for ç assumes the role of the letter z. The upper part resembles the letter c, with the difference that it has two squiggles attached to it, descending below the baseline. Similarly as the letter c it connects to the following letter with its upper section.

s kljukico v levo in navzdol. Prva oblika se veže s predhodno črko, druga stoji samostoj

Na začetku besed dobi prej opisana oblika znaka za r na levi še dodatni navpični krak.

Znak za s je podoben opisani črki f, le da nima prečne črtice. S kljuko zgoraj se veže naprej le s črko t.

Znak za t sega do srede vrste. Sestavljata ga ravna navpičnica na levi, od katere je zgoraj v desno potegnjen raven prečni del, s katerim se črka veže z naslednjo. Pokončni del je včasih zaobljen. Znak je podoben črki c.

Na začetku besede je navpični krak črke včasih poudarjen in podvojen.

Črka u ponazarja glasova u in v. Oblika spominja na današnji pisani mali u. Zavzema spodnjo polovico vrste, veže se v obe smeri.

Znak za v stoji na začetku besede, ponazarja pa glasova u in v. Levi krak je visok prek vse vrste in zavit kot ležeči sodobni s. Desni krak je kratka kljuka, od osnovne črte je potegnjen desno navzgor do srede vrste. Črka se ne veže v nobeno smer.

Črko x sestavljata dva prečna kraka. Daljši je zavit kot zrcalni sodobni s, potegnjen od srede osnovne vrste proti levi do srede spodnje vrste. Prečni krak je raven in kratek. V smeri od leve proti desni na osnovni črti križa zaviti krak. Črka stoji samostojno in se ne veže v nobeno smer.

Črka y se pojavlja izjemoma. Le dolžina krajšega kraka, ki se zaključi ob osnovni črti ob zavitem kraku, ne da bi ju križala, razlikuje to črko od znaka za x. Stoji samostojno in se ne veže v nobeno smer.

Znak ç ima vlogo črke z. Zgornji del je podoben črki c, ki pa ima pod vrsto dodatek v obliki dveh polkrožnih zavojev. S sledečo črko se – tako kot črka c – veže z zgornjim delom.

Numerals in the book are indicated with Roman numerals and words. Roman numerals are separated from the preceding and following text by two dots placed in the middle of the line. The elements of Roman numerals are: short and long **i** for one, **v** for five, **x** for ten, **l** for fifty, **c** for one hundred, and **m** for one thousand. They share the characteristics of the described letters, with the only difference that their form is somewhat emphasised. Numerals four, nine (fourteen and so forth) are signified by the combination of four short **i**'s, the symbol for five and four short **i**'s (the symbol for ten and four short **i**'s and so forth). Above the four short **i**'s there is an additional symbol or (from *quatuor*). The last **i**-symbol in a numeral usually has the form of a long **i**. The symbol for one half is denoted by a short line, which is drawn to the right of the preceding numerical symbol. Above and sometimes also below it there is a short vertical line, the upper one is sometimes dotted. In the transcript, the symbol for one half is denoted by a dash.

The symbol for half, attached to the symbol for one (I–).

Števila v knjigi so označena z rimskimi številkami in z besedami. Rimske številke so od predhodnega in sledečega besedila ločene s pikama sredi vrste. Elementi rimskih števil so: kratki in dolgi **i** za enico, **v** za petico, **x** za desetico, **l** za petdesetico, **c** za stotico in **m** za tisočico. Imajo značilnosti opisanih črk, le da je njihova oblika nekoliko poudarjena. Števila 4, 9 (14 ipd.) so zapisane s štirimi črticami, znakom za petico in štirimi črticami (znakom za desetico in štirimi črticami ipd.). Nad štirimi črticami je dodatna oznaka or (od quatuor). Zadnja enica v številki ima navadno obliko dolgega i. Polovico označuje črtica, ki je od predhodnega znaka za številko potegnjena v desno. Nad, včasih tudi pod njo je kratka navpičnica, zgornja včasih s piko zgoraj.

Znak za polovico, pripojen k znaku za enico (I–).

## THE TIME OF ORIGIN, THE WRITER

The fragments of Piran notary books Nos. 5, 4, 7, 8 and 17 contain the models of documents created in the period of 1289–1305. The entries therein do not always follow the chronological order.

Fascicle 4 is a chronological enigma. While the entries start before 1<sup>st</sup> May and end on 10<sup>th</sup> June, the fascicle contains no indication of year. According to Božo Otorepec, it should be dated in the period 1284–1289; however, this date seems too early. Several persons that are listed here as deceased are registered as commercially active in other books even after 1288: Ropretus, brother of Girordus/Gioldus, was still alive on 24<sup>th</sup> January 1290,<sup>9</sup> whereas fascicle 4 lists him as deceased before 1<sup>st</sup> May (entry No. 10). A more accurate estimation of the date of origin of the fascicle is enabled by the case of Valterius Goina. In fascicle 4 he is registered as deceased on 3<sup>rd</sup> June (entry No. 122), whereas according to the data in the notary codex marked 6, he was still alive on 30<sup>th</sup> May 1290<sup>10</sup> and then listed as deceased on 27<sup>th</sup> August 1290.<sup>11</sup> The representative of his two sons asked on their behalf in Treviso on 22 October to grant them their father's fief.<sup>12</sup> If fascicle 4 is dated in 1290 that would mean that Valterius Goina, who was still active on 30<sup>th</sup> May, died suddenly in one of the following days, before 3<sup>rd</sup> June, when registered as deceased in the same fascicle. This is highly unlikely, although his death occurred relatively soon afterwards, sometime before 27<sup>th</sup> August 1290. Fascicle 4 is most probably dated in May and June the following year, 1291.

The first entry in fascicle 5 is dated before 9<sup>th</sup> July 1289 and the most recent is dated 6<sup>th</sup> February 1290. The fragment of book 7 is not chronologically consistent. The first part contains entries dated from before 4<sup>th</sup> June to 20<sup>th</sup> June, whereas the second part contains entries dated from 25<sup>th</sup> March to 20<sup>th</sup> May 1291. The entries in fascicle 8 are, likewise, not arranged in chronological order; however, they do register agreements dating from 28<sup>th</sup> December 1291 to 12<sup>th</sup> December 1293. The entries on both sheets marked 17 are dated 5<sup>th</sup> January 1300 as well as 4<sup>th</sup> and 5<sup>th</sup> October and 5<sup>th</sup> December 1305.

Several entries refer to older unsettled arrangements. The oldest entry of this kind concerns a will dated 15<sup>th</sup> June 1278, contained in fascicle 7 (entry No. 56).

The author of the abstracts in the preserved fragments of notary fascicles is Dominicus Petenar(i)us from Piran. He was the son of Sir Albinus and mother Verera or Varera, who had four other sons, Ambrosius (Anbroxius), Andreas, Ingaldeus, and Petrus. They also had a daughter, married to Leonardus, brother of Iohanes Bonus vinus. Dominicus was the »notary of the famous Margrave Gregorius« – or more precisely: Gregorius, the Patriarch of Aquileia (1256–1269). In the 1290s he performed the duties of the Judge in Piran. He fathered two sons, Albinus and Petrus.

In the codices he often refers to himself in the first person (*ego notarius*), without in-

## ČAS NASTANKA, PISEC

Fragmenti piranskih notarskih knjig št. 5, 4, 7, 8 in 17 beležijo predloge listin, ki so nastajale v obdobju od 1289 do 1305. Zapisi v njih ne tečejo vselej kronološko dosledno.

Sešitek z oznako 4 zastavlja kronološko uganko. Vpisi začenjajo pred 1. majem, končujejo pa se z 10. junijem. Letnice sešitek na navaja. Božo Otorepec ga je datiral z razdobjem 1284–1289, vendar je ta datacija prezgodnja. Več oseb, ki se v besedilu omenjajo kot pokojne, je namreč v razdobju v drugih notarskih knjigah aktivnih še po 1288: Girordov/Giroldov brat Ropretus je bil 24. januarja 1290 še živ,<sup>9</sup> sešitek z oznako 4 pa ga pred 1. majem omenja kot pokojnega (vpis št. 10). Natančnejšo časovno opredelitev nastanka sešitka pa omogoča primer Valterija Goine. Sešitek 4 ga 3. junija omenja kot pokojnega (vpis št. 122), po podatku iz notarskega kodeksa z oznako 6 pa naj bi bil 30. maja 1290 še živ,<sup>10</sup> medtem ko se omenja kot pokojni 27. avgusta 1290.<sup>11</sup> Zastopnik njegovih dveh sinov je 22. oktobra v Trevisu v njunem imenu prosil za dodelitev očetovega fevda.<sup>12</sup> Če bi sešitek z oznako 4 datiral iz leta 1290, bi to pomenilo, da je Valterij Goine, ki je bil 30. maja še dejaven, nenadoma umrl v enem naslednjih dni pred 3. junijem, ko ga fragment 4 omenja kot pokojnega. To je malo verjetno, čeprav je dejansko umrl dokaj kmalu zatem, pred 27. avgustom 1290. Sešitek z oznako 4 najverjetneje datira iz maja in junija naslednjega leta 1291.

Prvi vpis v sešitku 5 datira izpred 9. julija 1289, najmlajši pa je iz 6. februarja 1290. Fragment knjige 7 ni kronološko usklajen. Prvi del beleži vpise izpred 4. junija do 20. julija, drugi del pa od 25. marca do 20. maja 1291. Tudi v sešitku 8 vpisi niso razporejeni kronološko dosledno, beležijo pa dogovore od 28. decembra 1291 do 12. decembra 1293. Vpisi na obeh listih z oznako 17 so iz 5. januarja 1300 ter iz 4. in 15. oktobra ter iz 5. decembra 1305.

Nekateri vpisi se sklicujejo na neporavnane starejše dogovore. Najstarejši tovrsten zapis zadeva oporoko iz 15. junija 1278 v sešitku z oznako 7 (vpis št. 56).

Pisec povzketov v ohranjenih fragmentih notarskih sešitkov je Dominicus Petenar(i)us iz Pirana. Bil je sin gospoda Albina in matere Verere ali Varere, ki sta poleg njega imela še štiri sinove, Anbrozija (Anbroxija), Andreja, Ingaldea in Petra. Imela sta tudi hčerko, ki je bila poročena z Leonardom, bratom Iohanesa Bonus vinusa. Dominik je bil »notar slavnega mejnega grofa Gregorija« – mišljen je oglejski patriarh Gregor (1256–1269). V devetdesetih letih 13. stoletja je opravljal dolžnosti piranskega sodnika. Sam je imel sinova Albina in Petra.

V kodeksih se pogosto omenja v prvi osebi (*ego notarius*) brez imena: v sešitku z oznako 5 v vpisih št. 26, 27, 52, 59, 92, 99, 101, 104, 105, 113, 126, 137, 143, 147, 149 in 158, v sešitku 7 v vpisih 6, 63, 64, 75, 76, 77, 90 in 119, v fragmentu 8 v vpisih št. 16, 19, 39, 47, 50, 70, v vpisu 59 pa omenja zadolžnice, ki jih je zapisala njegova roka (*manus*

dicating his name. This is done in fascicle 5, entries Nos. 26, 27, 52, 59, 92, 99, 101, 104, 105, 113, 126, 137, 143, 147, 149 and 158; in fascicle 7, entries Nos. 6, 63, 64, 75, 76, 77, 90 and 119; in fragment 8, entries Nos. 16, 19, 39, 47, 50 and 70; whereas in entry No. 59 he refers to promissory notes written by his hand (*manus mea*). In the same fascicle he refers to himself as *ego Dominicus notarius* in entries Nos. 27, 29, 30, 43, 53, 56, 74, 80 and 91. On the sheets of the fragment marked 17 he refers to himself in the first person (*ego notarius*) in entries Nos. 1 and 6.

In several cases he not only acted as notary but actively intervened in commercial transactions. On 1<sup>st</sup> October 1289 he settled an old arrangement with his brother-in-law Leonardus and remained indebted to him for 32 Venetian soldi/schillings (fascicle 5, entry No. 52). On 1<sup>st</sup> December that same year he was buying cereals on credit from a cereals merchant Martinus Lugnanus and incurred a debt of 22 Venetian librae/pounds and 16 soldi/schillings, most certainly not a negligible sum (fascicle 5, entry No. 87). He settled his debt, because the entry is crossed out. Four years later, between 7<sup>th</sup> and 8<sup>th</sup> December 1293, one Mateus obligated himself to work for him for three months (fascicle 8, entry No. 100). On 15<sup>th</sup> October 1305 he bought six *stari* (by 77.241,<sup>13</sup> i.e. a little over than 463 l) of cereals from a merchant Benedictus Cavianus (fragment 17, entry No. 5).

There are also fourteen other notaries appearing in the fascicles. *Anoe notarius* is mentioned in fascicle 7 (entry No. 55); *Arnustus tabelius* appears in the same fascicle (entry No. 110) and in fragment 17 – as already deceased (entry No. 1). *Artuicus tabelius* appears in fascicle 5 (entry No. 16), *Bonus Insegna notarius* in fascicle 4 (entry No. 91). Appearing in fascicle 5 are *presbyter Crescentius notarius* (entry No. 127), *Gallenganus notarius* (entries Nos. 28 and 128), *Ganbius notarius* (entry No. 16). Mentioned in notary book 7 are *Martinus Insulle incliti Gregorii marchionis notarius* (entry No. 21) and *Nicolaus Rufus notarius* (entry No. 111). *Petrus Bonus notarius* appears in a fragment of book 8 (entry No. 29). There are frequent indications in the entries of *Scaluonus* or *Sclauonus notarius*, the author of the already published notary codex 6:<sup>14</sup> in entries Nos. 37, 39, 44, 70, 71, 78, 79, 80, 83, 84, 93, 97, 102, 121, 125, 145 and 146 of codex 5; in entries Nos. 19, 107, 111 and 115 of fascicle 7; and in entries Nos. 8, 31 and 32 of fascicle 8. The latter also contains indications of *Tomasinus notarius* (entry No. 73). *Valterius notarius* from entries Nos. 44 and 97 of book 5 and *Valterius Gallenganus notarius* from entries Nos. 55, 64, 77 and 112 of book 7 are probably one and the same person. *Çacharia notarius*, too, appears in several fascicles: fascicle 4 (entry No. 41), fascicle 5 (entries Nos. 13 and 148), fascicle 7 (entry No. 20), and fascicle 8 (entry No. 40), furnishing a more detailed indication of his name: *Çacharia filius Venerii Columbani, notarius, iudex*.

mea). V istem sešitku se v vpisih št. 27, 29, 30, 43, 53, 56, 74, 88 in 91 omenja kot *ego Dominicus notarius*. Na listih fragmenta z oznako 17 se v prvi osebi (*ego notarius*) omenja v vpisih št. 1 in 6.

V nekaterih primerih ni nastopal le v vlogi notarja, ampak je tudi aktivno posegal v poslovno življenje. 1. oktobra 1289 je obračunal svoje posle s svakom Leonardom in mu ostal dolžan 32 beneških soldov (sešitek 5, vpis št. 52). 1. decembra istega leta je na kredit kupoval žito pri žitnem trgovcu Martinu Lugnanu in se zadolžil za 22 beneških liber in 16 soldov, kar nikakor ni bila zanemarljiva vsota (sešitek 5, vpis 87). Dolg je poravnal, saj je zapis prečrtan. Štiri leta kasneje, med 7. in 8. decembrom 1293 se je neki Mateo zavezal, da mu bo tri mesece služil (sešitek 8, vpis št. 100). 15. oktobra 1305 pa je na kredit kupil 6 starov (po 77,24 l,<sup>13</sup> torej dobrih 463 l) žita od trgovca Benedicta Caviana (fragment 17, vpis št. 5).

V sešitkih se pojavlja tudi 14 drugih notarjev. *Anoe notarius* se omenja v sešitku 7 (vpis št. 55), *Arnustus tabelius* v istem sešitku (vpis št. 110) ter v fragmentu 17 – že kot pokojni (vpis št. 1). *Artuicus tabelius* nastopa v sešitku 5 (vpis št. 16), *Bonus Insegna notarius* v sešitku 4 (vpis št. 91). V sešitku 5 se pojavljajo *presbyter Crescentius notarius* (vpis št. 127), *Gallenganus notarius* (vpisa št. 28, 128), *Ganbius notarius* (vpis št. 16). V notarski knjigi 7 se omenjata *Martinus Insulle incliti Gregorii marchionis notarius* (vpis št. 21) in *Nicolaus Rufus notarius* (vpis št. 111). *Petrus Bonus notarius* nastopa v fragmentu knjige 8 (vpis št. 29). Izredno pogosto se v vpisih pojavlja *Scaluonus* ali *Sclauonus notarius*, sicer zapisovalec že objavljenega notarskega kodeksa z oznako 6:<sup>14</sup> v vpisih št. 37, 39, 44, 70, 71, 78, 79, 80, 83, 84, 93, 97, 102, 121, 125, 145, 146 kodeksa 5, v vpisih št. 19, 107, 111, 115 sešitka 7 in v vpisih št. 8, 31, 32 sešitka 8. V slednjem se omenja tudi *Tomasinus notarius* (vpis št. 73). *Valterius notarius* iz vpisov št. 44 in 97 knjige 5 in *Valterius Gallenganus notarius* iz vpisov št. 55, 64, 77, 112 knjige 7 sta verjetno identična. V več sešitkih se omenja tudi *Çacharia notarius*: sešitek 4 (vpis št. 41), sešitek 5 (vpisa št. 13 in 148), sešitek 7 (vpis št. 20) in sešitek 8 (vpis št. 40), ki navaja podrobnejšo obliko imena: *Çacharia filius Venerii Columbani, notarius, iudex*.

## CONTENTS

### NOTARY BOOK 5 (1289–1290)

The preserved fascicle of notary book 5 contains the largest number of entries, i.e. 161, of all published fragments. As is common with such codices, most entries, as much as 112 (79%), refer to promissory notes, six of which are incomplete. 36 do not indicate the mode of (or reason for) establishing a debtor–creditor relationship. Most of the remaining promissory notes refer to wine (31) and cereals (20). An outstanding old debt was the reason for drawing up six promissory notes and the receipt of a loan for drawing up another five. Promissory notes refer to an incurred debt for the purchase of oil (3), salt (1), fustian (1), a blanket (1), a barrel/keg (2), a suit of armour (1), as well as one bargain and one will. In certain (3) cases a debtor was to repay his debt in work and in work or money, respectively. In thirteen promissory notes debtors guaranteed for the repayment of the debt with their property; in one case a guarantor pledged for part of the debt.

Seven entries refer to advance payment for the purchase of cereals. The same number of entries refers to a settlement between parties or a statement thereof that the creditor's claim has been satisfied.

There are four arrangements regarding work (entries Nos. 43, 56, 70 and 73), no less than three of which refer to work in salt fields. In such arrangements the debtors, and occasionally also their close relatives, obligated themselves to refrain from playing dice for a certain period of time (entries No. 57, 60, 61, 138 and 148).

Guarantors also pledged for businesses in independent entries. There are five such cases, and they relate to: a debt (entries Nos. 68 and 137), parts of wine in a commercial partnership (entry No. 84), and two cauldrons (entry No. 115); in one case a guarantor obligated himself to pay a penalty should the client play dice for the duration of the contract (entry No. 149). In two of the aforementioned cases (entries Nos. 115 and 137) guarantors guaranteed for the compact with all their property.

Several entries refer to transactions in real and extensive personal property. Owners let or leased their property: a plot of land (entry No. 83), two salt fields (entries Nos. 102 and 103), and two barrels (entry No. 74). Real property was sometimes subject to donation: a garden (entry No. 144), part of salt fields (entry No. 1250), or sale: plots of land with olive trees (entry No. 147), tithes of dwellings, once in combination with an exchange (entries Nos. 104, 105 and 126), and exchange: cottages for plots of land with olive trees (entry No. 145). The sale of real property was announced by the town herald (entries Nos. 27 and 28). The relatives of the person engaged in selling could thus reverse the transaction and repurchase the sold property within the announced time period. Transactions in real property would occasionally give rise to disputes which were decided by arbiters: entry No. 16 refers to a decision concerning a plot of land in Strunjan.

The fascicle also contains six wills (entries Nos. 44, 98, 114, 118 and 159) serving as most eloquent testimonies of the time in which they were written. They contain not only the data on the property of the testators but also on their families, living standard and concern for their spiritual well-being.

One entry (No. 146) is incomplete, rendering the interpretation impossible.

## VSEBINA

### NOTARSKA KNJIGA 5 (1289–1290)

Ohranjeni snopič notarske knjige 5 beleži med vsemi objavljenimi fragmenti največje število vpisov, 161. Kot je običajno v tovrstnih kodeksih, prevladujejo zapisi z značajem zadolžnic, ki jih je kar 112 (70%), od katerih je šest nepopolnih. Pri 36 ni omenjen način (vzrok) nastanka dolžniško-upniškega razmerja. Med ostalimi je največ zadolžnic nastalo v zvezi z vinom (31) in žitom (20). Nепoravnan starejši dolg je bil razlog za šest zadolžnic, prejem posojila pa za pet. Zadolžnice omenjajo dolg za olje (3), za sol (1), barhant (1), odejo (1), za sod(ček) (2), za oklep (1), po enkrat pa za kupčijo in zapuščino. V nekaj (3) primerih je dolжник dolgoval delo oz. delo ali denar. V trinajstih zadolžnicah so dolžniki jamčili za vračilo dolga s svojim imetjem, v eni pa je za del dolga jamčil porok.

Sedem vpisov omenja vnaprejšnje plačilo za nakup žita. Prav toliko jih omenja poravnavo med strankami oz. izjavo strank, da je njihov upniški zahtevek poravnan.

Dogovori glede dela so štirje (vpisi št. 43, 56, 70, 73), od tega kar trije zadevajo delo v solarni. Ob zadolževanju ali dogovoru o delu so se dolžniki, občasno tudi njihovi bližnji večkrat obvezali, da določen čas ne bodo hazardirali (vpisi št. 57, 60, 61, 138, 148).

Poroki s jamčili za posle tudi v samostojnih zapisih. Takih je pet: v zvezi z dolgom (vpis št. 68, 137), z deleži vina v trgovski družbi (vpis št. 84), z dvema kotloma (vpis št. 115), enkrat se je porok obvezal poravnati globo, če bi stranka v poslu kockala (vpis št. 149). V dveh od omenjenih primerov (vpisa št. 115, 137) so poroki jamčili s svojim premoženjem.

Več zapisov omenja poslovanje z nepremičninami in večjimi premoženji. Lastniki so jih oddajali v zakup ali najem: zemljišče (vpis št. 83), po dve solarni (vpisa št. 102, 103), dva soda (vpis št. 74). Nepremičnine so bile včasih predmet darovanja: vrt (vpis št. 144), del solarn (vpis št. 125), prodaj: zemljišča z oljkami (vpis št. 147), desetina bivanjskih objektov, enkrat v kombinaciji z menjavo (vpisi št. 104, 105, 126) in menjav: kočice za zemljišče z oljkami (vpis št. 145). Prodajo nepremičnin je objavil mestni klicar (vpisa št. 27, 28). Sorodniki prodajalca so namreč lahko posel preprečili in v objavljenem roku odkupili prodano posest. Zaradi nepremičnin je občasno prišlo do sporov, o katerih so odločali razsodniki: vpis št. 16 omenja razsodbo glede zemljišča v Strunjanu.

V spisku najdemo šest oporok (vpisi št. 44, 98, 114, 118, 159), ki sodijo med podatkovno najbogatejše pričevalce časa, v katerem so nastale. V njih niso le podatki o premoženju testatorjev, ampak tudi o njihovih družinah, o njihovem bivanjskem standardu in o njihovi skrbi za lastni dušni blagor.

En vpis (št. 146) je nepopoln in ne omogoča sklepanja na vsebino.

## NOTARY BOOK 4 (1291)

The fragment of notary book 4 dated 1291 is a classic example of a stereotype. All 125 entries therein refer to promissory notes for cereals. Every promissory note was settled, which is evident from upright crosslets inserted in front of entries. To avail a loan, two debtors pledged a mantle (entry No. 73) and a fur coat (entry No. 81), respectively. In fifteen promissory notes guarantors assured debtors that they would not incur any loss arising from the debts. In all promissory notes the creditor was a merchant in cereals, Martinus Lugnanus from Caorle. The same merchant was selling large quantities of cereals already in the 1280s, and his transactions were also registered by the notary Dominicus Petenarius.<sup>15</sup> It is interesting that the price of cereals after 24<sup>th</sup> May increased from 10 to 11 grossi/groats, i.e. by 10 percent, which may be understood as an indication that cereals were scarce at that time of year.

For the sake of uniformity of the contents and established word phrases it would be possible to publish this particular fragment in the form of a well-thought-out table. However, this was not done with a view to ensuring consistency among all published fragments of the notary books.

## NOTARSKA KNJIGA 4 (1291)

Fragment notarske knjige z oznako 4 iz leta 1291 je izrazito stereotipen. Pri vseh 125 vpisih, kolikor jih je zabeleženih v njem, gre za zadolžnice za žito. Vse so bile poravnane, kar je razvidno iz pokončnih križcev pred vpisi. Dva dolžnika sta za dolg zastavila ogrinjalo (vpis št. 73) oz. kožuh (vpis št. 81). Pri petnajstih zadolžnicah so poroki jamčili dolžnikom, da zaradi dolgov ne bodo oškodovani. Pri vseh zadolžnicah je bil upnik žitni trgovec Martinus Lugnanus iz Caorla. Isti trgovec je prodajal velike količine žita že v osemdestih letih, njegove posle pa je prav tako beležil notar Dominicus Petenarius.<sup>15</sup> Zanimivo je, da je cena žita po 24. maju zrasla z 10 na 11 grošev, torej za 10%, kar morda kaže, da žita v tem letnem času ni bilo več v izobilju.

Zaradi enotnosti vsebine in ustaljenih besednih zvez bi bilo možno ta fragment objaviti tudi v obliki dovolj domišljene tabele. Temu smo se izognili, da bi bila objava vseh fragmentov notarskih knjig usklajena.

## NOTARY BOOK 7 (1291)

Fascicle 7 contains 119 entries, 90 (76 percent) of which are promissory notes, one being incomplete. 46 do not indicate the mode of (or reason for) establishing a debtor–creditor relationship. By thirteens of the remaining promissory notes refer to wine and an inn. An outstanding old debt was the reason for drawing up seven promissory notes and the receipt of a loan for drawing up another three. Promissory notes refer to an incurred debt for the purchase of cereals (2), fustian (2); there are single cases referring to a bargain, a bakery, house letting, and barrel letting. In two cases a debtor was to repay his debt in work and in work or money, respectively. In four promissory notes debtors pledged various forms of security for the debt: a plot of land, a vineyard, possessions, even a shovel (entries Nos. 22, 33, 64 and 91), or their entire property (entry No. 39). One entry (No. 114) mentions a debtor’s commitment to repurchase the pawn for the loan.

Six entries refer to a settlement between parties or a statement thereof that the creditor’s claim has been satisfied, whereas one entry (No. 15) refers to a receipt. Debtor relationships were occasionally decided by arbiters (entries Nos. 103, 104 and 105).

There are three arrangements regarding work (entries Nos. 2, 71 and 92), mostly involving masonry, working in salt fields, and hiring oneself out to an employer for one year. On commencing employment, the labourer obligated himself to refrain from playing dice for the duration of that period (entry No. 93). In one case, two debtors had two guarantors to pledge for half of the debt for wine (entry No. 118).

Several entries refer to transactions in real property and extensive personal property. Owners let or leased their property: a terrace (entry No. 90) and part of a vineyard (entry No. 110). Real property was occasionally subject to sale: a house (entry No. 75), a tower and a house (entry No. 55), a garden with a plot of land and a pew for a partial debt repayment (entry No. 63), or distribution: two salt fields in Strunjan (entry No. 16). The purchase and sale of real property, respectively, was announced by the town herald (entries Nos. 94 and 119), who thus enabled the relatives of the person engaged in selling to repurchase the sold property. In one case (entry No. 21) a wife authorised her husband to administer her plot of land in Strunjan. Of interest is one particular entry (No. 78) declaring that the Bishop of Koper invested Iohanes Bonus vinus, an inhabitant of Piran, with a fee of tithes of the Koper Diocese in Piran, which the recipient confirmed in a separate written statement (entry No. 79). The entry referred to plots of land in Savudrija and tithes of ten houses in Piran.

The fascicle contains one will (entry No. 56) referring to bequests to several ecclesiastical institutions and seven children: three sons and four daughters.

The substantially unclear entry (No. 43) refers to a document containing time limits concerning two spouses.

## NOTARSKA KNJIGA 7 (1291)

Sešitek z oznako 7 vsebuje 119 vpisov, od tega 90 (76%) zadolžnic; ena od njih je nepopolna.

Pri 46 ni omenjen način (vzrok) nastanka dolžniško-upniškega razmerja. Med ostalimi je po trinajst zadolžnic nastalo v zvezi z vinom in gostilno. Naporavnan starejši dolg je bil razlog za sedem zadolžnic, prejem posojila pa za tri. Zadolžnice omenjajo dolg za žito (2), barhant (2), po enkrat pa za kupčijo, pekarijo, najem hiše in najem soda. V dveh primerih je dolžnik dolgoval delo oz. delo ali denar. V štirih zadolžnicah so dolžniki za dolg jamčili z zastavo: zemljiščem, vinogradom, imetjem ali celó z lopato (vpisi št. 22, 33, 64, 91), ali pa je jamstvo predstavljalo celotno dolžnikovo premoženje (vpis št. 39). En vpis (št. 114) omenja obvezo dolžnika, da bo v določenem roku odkupil zastavo za posojilo.

Šest vpisov omenja poravnavo med strankami oz. izjavo strank, da je njihov upniški zahtevek poravnan, en vpis (št. 15) pa ima značaj pobotnice. Dolžniška razmerja so občasno reševali razsodniki (vpisi št. 103, 104, 105).

Dogovori glede dela so trije (vpisi št. 2, 71, 92), zadevajo pa zidarsko delo, delo v solarni in enoletno udinjanje pri delodajalcu. Delojemalec, ki je stopal v službo, se je obvezal, da eno leto ne bo hazardiral (vpis št. 93). V enem primeru sta dolžnikoma za polovico dolga za vino jamčila poroka (vpis št. 118).

Več zapisov omenja poslovanje z nepremičninami in večjimi premoženji. Lastniki so jih oddajali v najem ali zakup: teraso (vpis št. 90), del vinograda (vpis št. 110). Nepremičnine so bile včasih predmet prodaj: hiša (vpis št. 75), stolp in hiša (vpis št. 55), vrt z zemljiščem in prostorom v cerkvi za odplačilo dela dolga (vpis št. 63), delitev: dveh solarn v Strunjanu (vpis št. 16). Nakup oz. prodajo nepremičnin je objavil mestni klicar (vpisa št. 94, 119) in s tem omogočil sorodnikom prodajalca, da so sami kupili prodano posest. V enem primeru (vpis št. 21) je žena imenovala svojega moža za zastopnika za upravljanje z njenim zemljiščem v Strunjanu. Zanimiv je vpis (št. 78), ki omenja, da je koprski škof umestil Pirančana Iohanesa Bonus vinusa v fevd desetih koprskih škofij v Piranu, kar je prejemnik potrdil v ločeni zapisani izjavi (vpis št. 79). Šlo je za zemljišča na Savudriji in za desetine desetih hiš v Piranu.

V spisku najdemo eno oporoko (vpis št. 56), ki omenja volila številnim cerkvenim ustanovam in sedmim otrokom: trem sinovom in štirim hčerkam.

Vsebinski nejasen je vpis (št. 43); omenja listino, v kateri so zabeleženi roki, ki zadevajo dva zakonca.

## NOTARY BOOK 8 (1292–1293)

Fascicle 8 contains 107 entries, 69 (64%) of which are promissory notes. 27 promissory notes do not indicate the mode of (or reason for) establishing a debtor–creditor relationship. Nineteen of the remaining promissory notes refer to wine and another six to an inn. A loan was the reason for drawing up seven promissory notes and an outstanding old debt for drawing up another three. Promissory notes refer to an incurred debt for the purchase of cereals (5), oil (1), and cloth (1). One promissory note relating to cereals (entry No. 15) also refers to an arrangement concerning a commercial partnership. In seven promissory notes debtors guaranteed with their entire property as security for the debt, whereas in two cases they pledged their house (entry No. 3) and possessions (entry No. 14), respectively. Of interest is one particular entry (No. 67) indicating that a father and son obligated themselves to buy a cow for a cattle-raising partnership to repay part of the debt. In six entries (Nos. 29, 30, 31, 32, 92 and 96) guarantors assured debtors that they would not incur any loss arising from the debts; in two cases (entries Nos. 92 and 96), guarantors pledged their entire property as security. One security was offered to ensure protection against damage to a vessel (entry No. 2), whereas one entry (No. 26) refers to a concrete sum of indemnity that two debtors would have to pay daily to a travelling merchant should he lose his vessel. Both cases involve a simple form of marine insurance.

Five entries refer to a settlement between parties or a statement thereof that the creditor's claim has been satisfied; another two entries contain a statement on the receipt of money.

There is one arrangement regarding work (entry No. 100). Therein it is indicated that Mateus would hire himself out to the notary Dominicus for three months. The arrangement was registered by Dominicus' own hand.

Several entries refer to transactions in real and extensive personal property. One entry refers to the letting of a vineyard at half a crop (No. 80), another to the letting of a vessel (No. 1), and one to a temporary letting of property in exchange for sustenance (entry No. 5). Real property was often subject to sale: a quarter of a tower (entry No. 70), a cottage (entry No. 16), a garden (entry No. 39), a vineyard and a field (entry No. 50), a plot of land (entry No. 79) and a barrel (entry No. 41). Two entries (Nos. 43 and 53) refer to the herald's announcement of the sale of real property.

The fascicle contains two marriage contracts (entries Nos. 65 and 106), five wills (entries Nos. 10, 38, 40, 59 and 77) and two inventories of property, in one case held by an orphan (entry No. 46), and in another – the entry is incomplete – by a married woman (entry No. 107). These entries outshine others both in substance and eloquence.

One entry (No. 28) also refers to a one-year cessation of playing dice for which the party pledges with his property.

## NOTARSKA KNJIGA 8 (1292–1293)

Sešitek z oznako 8 vsebuje 107 vpisov, od tega 69 (64%) zadolžnic. Pri 27 ni omenjen način (vzrok) nastanka dolžniško-upniškega razmerja. Med ostalimi je devetnajst zadolžnic nastalo v zvezi z vinom šest pa z gostilno. Posojilo je bilo razlog za sedem zadolžnic, neporavnan starejši dolg pa za tri. Zadolžnice omenjajo dolg za žito (5), olje (1), blago (1). Ena od zadolžnic za žito (vpis št. 15) omenja tudi dogovor o trgovski družbi. V sedmih zadolžnicah so dolžniki za dolg jamčili z vsem svojim imetjem, v dveh primerih pa z zastavo hiše (vpis št. 3) oz. imetja (vpis št. 14). Zanimiv je zapis (št. 67), ki omenja obvezo očeta in sina, da bosta za del dolga kupila kravo za družbo za živino. V šestih vpisih (vpisi št. 29, 30, 31, 32, 92, 96) so poroki jamčili dolžnikom, da zaradi dolgov ne bodo oškodovani, v dveh primerih (vpisa št. 92, 96) pa naj bi jamstvo predstavljalo celotno imetje porokov. Eno poročstvo naj bi zagotavljalo obvarovanje škode v zvezi s plovilom (vpis št. 2), en vpis (št. 26) pa omenja konkretno odškodnino, ki naj bi jo dva zavezanca dnevno dolgovala potujočemu trgovcu, če bi izgubil plovilo. V obeh primerih gre za preprosto obliko pomorskega zavarovanja.

Pet vpisov omenja poravnavo med strankami oz. izjavo strank, da je njihov upniški zahtevek poravnan, dva vpisa pa sta izjavi o prejemu denarja.

Dogovor o delu je eden (vpis št. 100). Omenja, da se bo Mateus za tri mesece udinjal pri notarju Dominiku. Ta je dogovor lastnoročno zapisal.

Več zapisov omenja poslovanje z nepremičninami in večjimi premoženji. Po en vpis omenja oddajo vinograda v spolovinski zakup (št. 80), oddajo plovila v najem (vpis št. 1) in začasno oddajo imetja v zameno za prevžitek (vpis št. 5). Nepremičnine so bile večkrat predmet prodaj: četrtna stolpa (vpis št. 70), kočje (vpis št. 16), vrt (vpis št. 39), vinograd in polje (vpis št. 50), zemljišče (vpis št. 79), sod (vpis št. 41). Dva vpisa (št. 43, 53) omenjata klicarjevo objavo prodaje nepremičnin.

V spisku najdemo dva ženitna dogovora (vpisa št. 65, 106), pet oporok (vpisi št. 10, 38, 40, 59, 77) in dva popisa imetja: enkrat sirote (vpis št. 46), drugič – gre za nepopoln vpis – poročene žene (vpis št. 107). Ti vpisi po povednosti in polnosti vsebine prekašajo ostale.

V enem vpisu (št. 28) se omenja tudi enoletna odpoved hazardiranju, za katero stranka jamči s svojim imetjem.

## NOTARY BOOK 17 (1300/1305)

Fragment 17 contains only six entries. Two (Nos. 5 and 6) are promissory notes, one for cereals, the other for cloth. The debtor indicated in the first is the notary *Dominicus Petenarius*. One entry (No. 1) indicates that the mother-in-law ceded vineyards to her son-in-law in compliance with the marriage agreement. Her daughter agreed to the arrangement. The first consent is crossed out (No. 2), whereas the second, more extensive entry (No. 3) is not. The longest entry in the fragment is a will (entry No. 6).

## NOTARSKA KNJIGA 17 (1300/1305)

Fragment z oznako 17 vsebuje le šest vpisov. Dva od njih (vpisa št. 5 in 6) sta zadolžnici, ena za žito, druga za blago. Dolžnik v prvi je notar *Dominicus Petenarus*. En vpis (št. 1) omenja , da je tašča v skladu z ženitnim dogovorom zetu odstopila vinograde. Njena hči je na to pristala. Prvo soglasje je prečrtano (vpis št. 2), drugo (vpis št. 3) obsežnejše pa ne. Najdaljši vpis tega fragmenta je oporoka (vpis št. 6).

## THE PUBLISHER'S APPROACH

### TO THE TRANSCRIPTION

In this publication the entries from the notary fragments are accompanied by modern consecutive numbers (whereas in the original they are not numbered at all) and titles. The addition of Slovene and English titles of entries render the reading easier by providing the basic information on the contents and a date of an entry. The original does not contain such titles. Left of the entry the numbers of sheets of the original are marked in empty intervals between the texts. The verso page is marked by the letter v (for verso) in the top right corner next to the sheet number.

The transcription strives to follow the original to the letter. Abbreviations are interpreted in accordance with symbols that mark abbreviations and with due consideration of the linguistic particularities of the original.

The transcription preserves all inconsistencies of the original text: duplications of words and letters, swaps of letters or letter groups, omissions of letters and syllables, and a series of grammatical and logical deficiencies occurring in the original.

In this publication the text of the notary book is equipped with punctuation marks and capital letters. Divisions of some words which the notary wrote together or separately are modernised. Parentheses enclose words or groups of words in the original which the notary crossed out or tried to erase, whereas square brackets enclose illegible words. Enclosed in the latter, one dot denotes one illegible letter (one symbol for a numeral), two dots denote two letters (two symbols for a numeral), a small line denotes a syllable (part of numeral), and three dots denote an illegible word (numeral) or group of words.

The original is published in its entirety. Each entry constitutes a concluded unit which is (or is not) followed by one or more notes. The latter draw attention to the visual appearance of the original, as well as to spelling and substantial particularities of the original. In the transcript, all editorial interpolations (sheet numbering, entry numbering, denotation of contents, dating and notes) are printed in italic. Since all transactions registered in the published parts of the notary books were concluded in Piran, there is no indication of place. One entry (No. 21, fascicle No. 7) is an abstract from the text regarding an appointment of a representative, originally written in Izola. The comments are – as the titles of entries – bilingual, Slovene and English. All entries are published for the first time and have never been referred to by any past publications of Istrian and Piran sources.

The appearance of the original is illustrated by longer or shorter lines – separating lines between entries, crosslets and broken e's, as well as paragraph-like symbols in front of entries – as used by the author of the book. Other characteristics (crossing out, modern denotations and so forth) are described in notes.

Finally, a few words on the sequence of transcriptions: Since the preserved part of fascicle No. 5 contains older entries than fascicle No. 4, its transcript in this publication precedes that of fascicle No. 4.

# IZDAJATELJSKI PRISTOP

## K PREPISU

Vpisi iz notarskih knjig so v objavi zaporedoma sodobno oštevilčeni (v izvorniku niso) in naslovljeni. Naslovi vpisov v slovenščini in angleščini so dodani za lažje sledenje vsebini, navajajo pa vsebinski značaj in datum vpisa. Izvorniki tovrstnih naslovov ne vsebujejo. Na levi strani ob prepisu so v vrstičnih presledkih med besedilom označene številke listov izvornikov. Hrbtno stran lista označuje črka v (za *verso*) desno zgoraj ob številki lista.

Prepis si prizadeva do črke natančno slediti izvornikom. Okrajšave so razrešene v skladu z oznakami, ki označujejo krajšanje, ob upoštevanju jezikovnih posebnosti notarja. Znak za polovico v prepisu ponazarja pomišljaj.

Prepis ohranja vse nedoslednosti izvirnega besedila: podvojitve besed in črk, zamenjave črk in črkovnih skupin, izpuščanje črk in zlogov ter vrsto slovničnih in smiselnih pomanjkljivosti, ki so značilnost izvornih zapisov.

Besedilo fragmentov notarskih knjig je v objavi opremljeno z ločili in velikimi začetnicami, ki jih v izvornikih ni. Posodobljene so delitve nekaterih besed, ki jih je notar zapisal skupaj ali narazen. Okrogli oklepaj ograjuje besede ali skupine besed, ki jih je notar prečrtal ali skušal izbrisati, oglati pa nečitljive. Znotraj slednjih označuje ena pika nečitljivo črko (znak za številko), dve piki dve črki (dva znaka za številko), črtica zlog (del številke), tri pike pa nerazberljivo besedo (številko) ali skupino besed.

Izvorniki so objavljeni v celoti. Vsak vpis je zaključena enota, ki ji (ali ne) na koncu sledi ena ali več opomb. Te opozarjajo na zunanji izgled in na pisne ter vsebinske posebnosti vpisa. V prepisu so redakcijski vstavki (oštevilčenje listov, oštevilčenje vpisov, oznaka vsebine, datacija, in opombe) natisnjeni ležeče. Vsi posli, ki so zabeleženi v objavljenih delih notarskih knjig, so bili sklenjeni v Piranu, zato kraj dogajanja ni naveden nikjer. En vpis (št 21. v notarskem fragmentu z oznako 7) povzema besedilo o imenovanju zastopnika, ki je bilo zapisano v Izoli. Komentarji so – enako kot naslovi vpisov – dvojezični, slovenski in angleški. Vsi vpisi so objavljeni prvič, dosedanje objave istrskih in piranskih virov se jih niso dotaknile.

Izgled sešitkov skušajo ponazoriti: daljše ali krajše črte – ločnice med vpisi, kot jih je naznačil pisec knjige, križci in prelomljeni e ter paragrafast znak pred začetkom vpisa. Ostale značilnosti (prečrtavanja, sodobne oznake ipd.) so opisane v opombah.

Še k zaporedju prepisov: Ker zajema ohranjeni del notarske knjige številka 5 starejše vpise kot tisti z oznako 4, je njegov prepis v objavi umeščen pred prepis sešitka z oznako 4.

## TO THE INDEXES

The publication offers three kinds of indexes: the index of personal and place names, the index of subjects, and the index of entries and their abstracts. The indexes of personal and place names, and the index of subjects cover the vocabulary used in the entire published corpus of the notary fragments. The entries of all preserved (parts of) fascicles contained in this publication are grouped into two uniform indexes. The index and abstracts of entries are presented separately for each fragment of the notary codex.

The numbers of (parts of) fascicles in the indexes of names and subjects are indicated in Roman numerals (IV, V, VII, VIII, and XVII), whereas Arabic numerals next to index entries stand for consecutive numbers of entries, by referring to each individual notary fragment where a certain entry is found. The two indexes also comprise the names and subjects which the notary crossed out from the original. Such entries and parts thereof – as well as entry numbers, if any – are marked by an asterisk. In the index of personal and place names place names are marked with the letter t (toponym).

The main problem in both the name and subject index is that the notary often spelled the same word differently. Similar variants of the same name or subject which would in any event be listed close to one another in the index are combined in a single entry. The alphabetical order of the entries listed in the indexes is therefore not consistently observed. The indications of persons and parts of the versions of names and subjects, which do not appear consistently in the entry, are enclosed in parentheses and slashes. By citing every single variant of a name or subject many entries might be expanded to unintelligibility. Variants of the same word listed far away from each other or do not begin with the same letter, are cross-referenced to one another.

Numerous names in the original appear in many different forms as well as abbreviated and diminutive variants. Their mutual connections are indicated by cross-references. To make the name index as informative as possible, the names are accompanied by indications of kinship relations that could be inferred from direct or indirect data in the published texts. If, for example, the same father is indicated in reference to two persons in different entries, they are identified in the name index as in a brother/sister relationship, even though this may not be explicitly indicated in the original text. Such a practice has revealed a wide spectrum of kinship relations in several families. Identification by name is used for both places (except Piran) and persons whose origin or residence is connected with these places.

The subject index also includes certain words that were misspelled by the notary (e.g. the notary's abbreviation *p t* is logically interpreted as *pena tercii*). Here, too, the subjects are listed in different spelling variants and cross-referenced to one another. Numerous subjects contained in the index would not be found in any dictionary of Medieval Latin. However, word phrases in which they occur render their interpretation possible. In addition to containing the number of an entry where a certain term appears, the subject index is conceived of as a Latin–Slovene–English dictionary.

Along with the money and measurement units the subject index also provides explanations on their ratios and values.

## K SEZNAMOM

Objava prinaša tri vrste seznamov: seznam osebnih in krajevnih imen, pojmovni seznam in seznam in povzetke vpisov. Seznama osebnih in krajevnih imen ter pojmovni seznam zajemata besedišče iz celotnega objavljenega korpusa notarskih fragmentov. Gesla vseh ohranjenih (delov) sešitkov, ki jih zajema objava, so v njiju združena v enotna seznama. Seznam in povzetki vpisov pa so predstavljeni ločeno za vsak objavljeni ohranjeni fragment notarskega kodeksa posebej.

Številke (delov) sešitkov v imenskem in pojmovnem seznamu so navedene v rimskih številkah (IV, V, VII, VIII, XVII), arabske številke ob geslih pa pomenijo zaporedne številke vpisov, v posameznem notarskem fragmentu, kjer se geslo omenja. Seznama zajemata tudi imena in pojme, ki jih je notar v izvorniku prečrtal. Taka gesla ali njihove dele – po potrebi pa tudi številko vpisa, kjer se nahajajo – označuje zvezdica. V seznamu osebnih in krajevnih imen so slednja označena s črko t (toponim).

Tako pri imenskem kot pri pojmovnem seznamu povzroča težave dejstvo, da je notar iste besede zapisoval na različne načine. Podobne inačice istega imena ali pojma, ki bi bile tudi po abecedni razvrstitvi blizu druga drugi, so v seznamu združene v eno geslo. Abecedno zaporedje gesel v seznamih zato ni dosledno spoštovano. Oznake oseb ter dele inačic imen in pojmov, ki se v geslu ne pojavljajo dosledno, ograjujejo okrogli oklepaji in poševnice. Navajanje vseh inačic imen in pojmov v celoti bi namreč prenekatero geslo do nepreglednosti razširilo. Na inačice iste besede, ki so v seznamu daleč narazen ali se ne začinjajo z isto začetnico, opozarjajo kazalke.

Številna imena se v izvorniku pojavljajo v različnih oblikah, v skrajšanih in pomanjševalnih variantah. Povezavo med njimi skušajo uskladiti kazalke. Da bi bil imenski seznam čim bolj poveden, so ob imenih navedene sorodstvene zveze, na katere je bilo mogoče sklepati iz neposrednih ali posrednih podatkov v objavljenih besedilih. Če se npr. pri dveh osebah v različnih vpisih omenja isti oče, imenski seznam pri njima navaja bratsko/sestrsko razmerje, čeprav to v besedilu izvornika ni izrecno zabeleženo. Za nekatere družine se tako razkrije pahljača sorodstvenih povezav. Ob krajevnih imenih (razen Pirana) so poimensko omenjene tudi osebe, ki so po poreklu ali bivališču povezane s temi kraji.

V pojmovnem seznamu so po smislu zajete tudi nekatere besede, ki jih je notar pomanjkljivo zapisal (notarjeva okrajšava *p t* je npr. smiselno prevedena v *pena tercii*). Tudi v tem seznamu sistem kazalk povezuje različne načine zapisovanja izrazov za isti pojem. Številne pojme iz seznama bi v slovarjih srednjeveške latinščine zaman iskali. Besedna zveza, v kateri se pojavljajo, pa omogoča njihovo tolmačenje. Pojmovni seznam ne navaja le številke vpisa, v katerem se nek izraz omenja, ampak je zasnovan kot latinsko–slovensko–angleški slovarček.

Ob denarnih in merskih enotah, navaja pojmovni seznam tudi pojasnila o njihovih razmerjih in velikosti.

Seznam vpisov s povzetki je zasnovan tabelarično. V prvi rubriki tabele je naveden list sešitka, kjer se nahaja vpis, v drugi je njegova zaporedna številka v objavi, v tretji rubriki je datum dogajanja, v četrti je v slovenščini in angleščini naveden tip vpisa glede na njego-

The index of entries and their abstracts is displayed in a tabular form. The first column specifies the sheet of the fascicle in which an entry is found; the second column specifies its consecutive number in the publication; the third column specifies the date of event; the fourth column provides a Slovene–English characterisation of the substance of the entry; the fifth column includes a Slovene–English summary of the content of the entry, which Slovenizes the modern names of known places, but refers to personal names in their original form (only the endings in Slovene abstracts are Slovenized). The last column specifies the page in the publication containing the printed transcript of the entry.

Since the preserved part of fascicle No. 5 comprises older entries than fascicle No. 4, in this publication the index of entries and their abstracts pertaining to fascicle 5 precedes the index of contents pertaining to fascicle No. 4.

vo vsebino, peta kolona pa vsebuje slovensko–angleški povzetek vsebine vpisa, ki sloveni sodobna imena znanih krajev, medtem ko ohranja osebna imena v izvorni obliki (sloveni le obrazila v slovenskih povzetkih). Zadnja rubrika navaja stran v objavi, kjer je natisnjen prepis vpisa.

Ker zajema ohranjeni del notarske knjige številka 5 starejše vpise kot tisti z oznako 4, je seznam vpisov in njihovih povzetkov za sešitek 5 v objavi umeščen pred seznam vsebin dela kodeksa z oznako 4.
