## PREDGOVOR / PREFACE

Monografija je posvečena manjšim rimskim naseljem, ki ležijo na območju današnje Slovenije. Gre za prehoden in geografsko raznolik prostor, na katerega so segale tri velike upravne enote rimske države: Italija ter provinci Norik in Zgornja Panonija.

Strnjena naselja, ki jih predstavljamo, so po velikosti in pomenu vmesni člen med avtonomnimi mesti in razpršeno poselitvijo podeželja, katere osnova so bile vile rustike. V zadnjih desetletjih je arheologija z velikimi zaščitnimi izkopavanji pridobila obsežne in pomembne nove podatke o tovrstnih naseljih, ki pa do zdaj večinoma še niso bili poglobljeno analizirani in objavljeni. Potreba po zbranem vedenju se je npr. izrazito pokazala v sodelovanju z mednarodno skupino Adriaticum mare pri projektu Informatiziranega atlasa antičnega Jadrana (AdriAtlas). Tri ustanove, Inštitut za arheologijo Znanstvenoraziskovalnega centra Slovenske akademije znanosti in umetnosti, Inštitut za arheologijo in dediščino Fakultete za humanistične študije Univerze na Primorskem ter Oddelek za arheologijo Filozofske fakultete Univerze v Ljubljani, so leta 2015 dale pobudo, da bi vedenje o manjših naseljih zbrali, ustrezno ovrednotili in dvignili na višjo raven.

Delo je dozorelo v štirih letih. Šestindvajset avtorjev prihaja iz različnih ustanov, od univerz, raziskovalnih inštitutov in muzejev do Zavoda za varstvo kulturne dediščine Slovenije, ali pa gre za posameznike, ki delujejo kot samostojni raziskovalci. V samostojnih poglavijih predstavljajo dvajset naselij različnega tipa in stopnje raziskanosti. Avtorji so najboljši poznavalci oziroma aktivni raziskovalci najdišč, ki jih obravnavajo. Prav za potrebe monografije so se poglobili v primarno dokumentacijo novejših raziskav in poročila, v drobno gradivo in razpršene starejše objave. Zgoščene predstavitve naselij bolj ali manj sledijo skupnemu konceptu. Podatki so umeščeni v prostor, podprtji s kartami in načrti, vsebinsko primerljivi in jasno ovrednoteni. Vsak poglavje vsebuje podatke o legi naselja in njegovem antičnem imenu, kratko zgodovino raziskav, morebitno obljudenost lokacije v prazgodovini, predstavitev antičnih literarnih virov in epigrafskih spomenikov. Osrednji del je usmerjen v pregled arheoloških ostankov rimske

The book discusses the minor settlements that dotted the territory of present-day Slovenia in the Roman period. This geographically diverse territory was crossed by important lines of communication and divided between three large administrative units of the Roman state: Italy and the provinces of Noricum and Upper Pannonia.

The compact minor settlements represent a link, in both size and significance, between the autonomous towns and the dispersed settlement of the countryside with countryside villas as its backbone. In recent decades, the large-scale rescue excavations across Slovenia have yielded vast and important data on these minor settlements, though they have for the most part not yet been analysed in detail and published. Clearly, there is a great desire for the information these excavations brought to light, but the consequent knowledge became even more desirable during the collaboration with the international Adriaticum Mare group on the AdriAtlas or Computerised Atlas of the Antique Adriatic project. In 2015, three institutions in Slovenia (Institute of Archaeology ZRC SAZU; Institute for Archaeology and Heritage, Faculty of Humanities, University of Primorska; Department of Archaeology, Faculty of Arts, University of Ljubljana) came together with the shared goal of advancing our knowledge on the minor Roman settlements in Slovenia by appropriately analysing and evaluating the data, new and old.

The book is the result of four years of work and research. Twenty-six authors wrote contributions on individual settlements. They come from different institutions – both universities, research institutes, museums, the Institute for the Protection of Cultural Heritage of Slovenia – and from the ranks of independent researchers, and present twenty settlements of different types and degrees of investigation in separate chapters. The authors are either those with the most in-depth knowledge on a specific site or those who actively investigated it. For the purposes of this book, they examined the excavation records and reports, the recovered small finds and different earlier publications, and presented their results in a comprehensive and clear manner roughly following

dobe: v topografijo, infrastrukturo, stavbe, grobišča in premične ostanke posebnega pomena. Sledijo podatki o statusu naselja, o družbenem položaju posameznih prebivalcev, njihovih administrativnih ali vojaških funkcijah, poklicih in etnični pripadnosti. Poglavlje zaokroža oris zgodovinskega razvoja naselja.

Želimo si, da bi delo omogočilo primerjave med posameznimi naselji, da se bodo razjasnila nekatera vprašanja o njihovem gospodarskem in družbenem pomenu ter o njihovi vlogi v poselitveni sliki širšega prostora med Jadranom in Donavo. Predvsem pa si želimo, da bi spodbudilo nove analize in objave gradiva ter bilo z njimi kmalu preseženo.

Radi bi se zahvalili mnogim. Najprej Francisu Tassauxu iz Bordeauxa, duši združenja Adriaticum mare, za prijazno spodbudo. Poleg obeh glavnih recenzentov, Janeza Dularja in Ivana Šprajca, so h kakovosti posameznih besedil mnogo pripomogli številni kolegi, s katerimi so se posvetovali avtorji ali uredniki. Mateja Belak, Andreja Dolenc Vičič, Dragotin Valoh in Tamara Korošec (vsi ZRC SAZU – Inštitut za arheologijo) so poskrbeli za enotno podobo knjige. Prevodi v angleščino so delo Mete Osredkar, Andreje Maver, Gregorja Pobežina in Lucije Jelenko.

*Jana Horvat, Irena Lazar, Andrej Gaspari*

a common concept. The information they obtained is located in space, illustrated with maps and plans, clearly conveyed and properly evaluated. The presentation of each settlement opens with its location and name in Antiquity, possible habitation traces from prehistory, mentions in ancient literary texts and documents, and recovered epigraphic evidence. The next, main part offers an overview of the archaeological remains from the Roman period: topography, infrastructure, buildings, cemeteries and portable remains of particular significance. This is followed by the information on the status of a settlement, social standing of its inhabitants, their administrative or military functions, as well as professional or ethnical background. All is brought together in an outline of the historical development of each settlement.

It is our wish and aim that the information in this book enables and incites comparisons between individual sites in order to shed light on certain issues pertaining to their economic and social role in the settlement of the wider area between the Adriatic and the Danube. Even more importantly, it is our wish that the book would serve as a stepping stone for further research and better knowledge on the subject.

The book is a result of a concerted effort of authors and numerous other individuals. First of all, our thanks go to Francis Tassaux from Bordeaux, the soul of the Adriaticum Mare Association, for his kind incentive. In addition to the two main peer reviewers, Janez Dular and Ivan Šprajc, numerous colleagues shared their knowledge and offered professional advice to both the authors and the editors. Mateja Belak, Andreja Dolenc Vičič, Dragotin Valoh and Tamara Korošec (all ZRC SAZU – Institute of Archaeology) made sure that the book of numerous contributions functions as a whole. Meta Osredkar, Andreja Maver, Gregor Pobežin and Lucija Jelenko translated the contributions into English.
